carried on at the very doors of the United States between the people of Cuba and the Spanish Government, and it would result either in the independence of Cuba or in the utter destruction of her people. Expressions of sympathy would avail nothing to the Cuban insurrectionists. If the United States intended to take any step to bring about a condition of affairs in Cuba different from that which had existed during the last seventy ears that are should step to bring about a condition of affairs in Coba different from that which had existed during the last seventy years that step should be in the direction of the ultimate independence of Cuba. While affairs had not yet reached a point that would justify the United States in seknowledging the independence of Cuba, there was a state of things in Cuba that would justify the Government of the United States in considering a proposition for active interference in the struggle, litt the pending resolution proposed no such active interference. It proposed only that the good offices of the United States should be offered to Spain to bring about not merely a cessation of hostilities, but an ultimate peace on the basis of Cuban independence, the only basis on which good government could ever be secured to the people of Cuba. The United States had the right to demand that Spain should give to Cuba some sort of respectable government, some sort of protection, some sort of liberty, that would commend itself to the enlightened civilization of the are. Spain owed to Cuba as much as Turkey owed to Armenia, as much as Turkey owed to Armenia, as much as Turkey owed to Armenia, as much as the United States owed to Venezuela. If Spain did not pay the obligations reating on her, then the time had come for steps to be initiated; and they could be properly initiated only by the Government of the United States to guarantee the hayment of the sum to be agreed upon.

Mr. Hill (Dem., N. Y.) suggested some modifications of the amendment offered by Mr. White (Dem., Cal.), and Mr. White accepted the suggestion and modified his amendment accordingly.

Mr. Gray (Dem., Del.) said that since the debate commenced the Committee on Foreign Relations had gone over the whole matter and had agreed unanimously to add to the committee resolution the amendment offered by Mr. Cameron (Rep., Pa.) recognizing the independence of Cuba.

Mr. White (Dem., Cal.) said that the recognition of independence could have no more effect than the recognition of belligerency.

Mr. Vest (Dem., Mo.) assed him what he thought would be the effect of a recognition of independence on Spanish securities—in other words, on her military power and resources.

Mr. White replied that his financial abilities were not sufficient to enable him to answer the question.

Mr. Vest—Dees not the Senator believe that

Mr. Vest—Does not the Senator believe that the recognition of independence would stop that terrible war in the island of Cuba within sixty

the recognition of independence would stop that terrible war in the island of Cuba within sixty days?

Mr. White I do not know. My belief is that the war would last longer than sixty days.

Mr. Pasco (Dem., Fla.) argued for a joint resolution in preference to a concurrent resolution. Mr. Sherman stated as a reason against a joint resolution that it would have to be acted on by the President within ten days, whereas, with a concurrent resolution that it would have to be acted on by the President within ten days, whereas, with a concurrent resolution may be acted on by the President within ten days, whereas, with a concurrent resolution was preferable. It would necessitate the taking of speedy action.

The hour of 4 o'clock having arrived, Mr. Call (Dem., Fla.) pleaded for a further extension of the time for debate, but decided opposition was made by Mr. Sherman and others, and so the voting proceeded.

The first amendment to be voted on was that offered by Mr. White Dem., Cal., declaring the opinion that the executive department, to whose investigation and care our diplomatic relations have been largely committed, should recognize the belligerency of those who are maintaining themselves in Cuba fo armed opposition to Spain, and that the influence and offices of the United States may be permanent government of hor own choice.

Mr. Sherman moved to lay Mr. White's amendment on the table, and that motion was agreed to years 57, mays 12, as follows disquisitions in Roman, Democrats in italies, and Populists in small case):

IN THE HOUSE.

The Cuban resolutions did not figure in to-day's proceedings of the House until just before the close of the session, when Secretary Cox of the Senate announced to the House the action of the Senate. The announcement was followed by applause on the floor and in the gallaries, which lasted several seconds. The resolutions lie on the Speaker's desk, whence they may be called up at any time. It was understood this afternoon that Mr. Hitt will ask the House to dispose of them on Monday.

The statements printed yesterday of the alleged insolence of the deputy United States marshals toward Gen. Garcia, Hughes, Benj. Everybody sympathizes with the Cuban patriots, and practically nobedy sympathized with the course of the Govsenment officials in the Bermuda seizure. The bad is for the appearance of the Captain and the mates on March 10.

When Capt. Ker, the senior counsel for the defence, was asked his opinion of the verdict, he said: "Well, it did not please me, but I expected it from the manner in which the Judge charged the jury. If they are convicted at the next trial, I'll have them admitted to honorary membership in the Grand Arms of the Republic the moment they are sentenced. There is a clause in one of the laws of that organization that permits the election to honorary membership of any person, no matter what his nationality may be, who has been punished in the cause of freedom. If these men are sentenced they will be entitled to membership. Their convection will not cause Americans to cease interesting themselves in the cause of Cuban freedom.

GLEASON'S MARTYR MOORE.

THE BIG MAYOR RETURNS HOME AND SAYS HA! HA!

Interrupted in the Formation of a Plan to
Do Something or Other-How Far Richmond Is Behind Long Island City in
Its Executive and Pire Departments. Patrick Jerome Gleason, Mayor of Long Island City, sat in the big easy chair in his own office resterday and looked contemplative; across the way at the city prison, where young Mr. Moore, whom the big boss had appointed to be Commissioner of Public Works, was doing stunts behind locks because of a difference with Justice Gaynor of the Supreme Court. That is to say, he was in prison for contempt of

"Martyrs are made that way," mused the big Mayor. "Oppressed by tyrant hands they may break, but they never bend. Now there's a case. The people's idol goes to jail and becomes the people's idler. Fate is capricious."

Before him as he sat and mused there hung

the great shining axe, emblem of the energy and zeal of the big Mayor. He looked up at it and a sunny smile stole up and chased the gloom out of its hiding place under his shaggy eyebrows. His hands had been clasped behind his head. He swung part way around in his casy chair and brought one of them down with a crash on the desk. "Ha!" he exclaimed, "Ha! ha!"

The determination that leads to great deeds was forming, and in a few minutes more a plan would have been developed whereby fate would

No new proclamation has been issued by Captain-General Weyler, The alleged forecast of an intended proclamation, issued by the Chicago Associated Press, was based unon rumors that have been in circulation here for several days. It has been common talk here that Gen. Weyler would give the insurgents in the provinces of Havana and Pinar del Rio affected days in which to choose between surrender and the fate of bandits under the law of Spain.

The steamer Ruenos Ayres has arrived from Spain with about 1,000 new troops.

Gen. Limares reports that insurgents in the hills near San Gabriel, in the Province of Havana, opened fire on his celumn. The troops disloiged the enemy, causing them to leave twelve dead in the field. Neighbors say that others were carried away. The troops lest one killed and eight wounded.

The insurgents have ditched a pilet engine and burned the culverts along the railroad near Limonar, Province of Matanzas.
